12 POINT TIEBREAK

The 12 point tiebreak shall operate when the score reaches six games all in any set. The following system shall be used in a 12-point tiebreak game.

Singles:

1. A player who first wins seven points shall win the game and set provided that they lead by a margin of two points. If the score reaches six points all, the game shall be extended until this margin has been achieved. Numerical scoring shall be used throughout the tiebreak game.
2. The player whose turn it is to serve shall be the server for the first point. Their opponent shall be the server for the second and third points and thereafter each player shall server alternately for two consecutive points until the winner of the game and set has been decided.
3. From the first point, each service shall be delivered alternately from the right (deuce) and left (ad) courts, beginning with the right (deuce) court. If service from a wrong half of the court occurs and is undetected, all play resulting from such wrong service or services shall stand, but the inaccuracy of station shall be corrected immediately when discovered.
4. Players shall change ends after every six points and at the conclusion of the tiebreak game. For example: a) Player A serves 1 point from the right (deuce) court, b) Player B servers 2 points starting from the left (ad) court, c) Player A servers 2 points starting from the left (ad) court, d) Player B serves 1 point starting in the left (ad) court, e) Players change ends of court, f) Player B serves 1 point from the right (deuce) court, g) Player A serves 2 points starting from the left (ad) court if necessary, and so on until the winner has been determined.

Doubles:

In doubles, the procedure for singles shall apply. The player whose turn it is to serve shall be the server for the first point. Thereafter, each player shall serve in rotation for two points, in the same order previously in that set, until the winners of the game and set have been decided.

Rotation of Service:

The player/team whose turn it was to serve first in the tiebreak game shall receive service in the first game of the following set if necessary.

10 POINT SUPER TIEBREAK

If a match is tied at one set each, then a third set 10-point super tiebreak is to be played. The 10 point super tie break is played just as the 12 point with the first server serving one point starting in the deuce court, then the next in the service rotation serving two, starting in the ad court. The 10-point tiebreak is played until the first team (player) gets to 10 points and is ahead by 2. For example: the winner of set is 10-1, 10-2, 10-3, 10-8, 11-9, 12-10, etc. The ultimate winner of the set must be ahead by two points.

Also, you switch sides procedurally the same as in the 12-point tiebreak, after every six points have been played.
